

Justin,

Yes, everything worked out good. The door is spectacular. It is getting a lot of attention. The company that I had make the glass for it got the template wrong, so we still don't have glass in it. That should get done early next week. Thank you for your hard work and the follow up service. I have also received your company info that you sent. We will have this set up for the parade. Hopefully you will get some calls off of it.

Thanks again and have a nice day,

Fred Rivera

Project Manager/Superintendent
